OUR TERMS OF SALE

Conditions The plants named are offered at the rates quoted, provided that not less than ten of each variety are taken at the hundred rate, not less than two hundred and fifty at the thousand rate, nor less than three at the dozen rate.

Terms Three per cent. discount for cash with order; two per cent. discount on all invoices paid within ten days. All bills subject to draft in thirty to sixty days, unless otherwise agreed upon.

Substitution Under no circumstances will we substitute unless privileged to do so by purchaser. Customers will save time to give second choice of any variety should we be out of their first choice.

Packing To far off points many customers have the soil removed from the roots of Roses and then wrapped in damp moss, thereby saving express charges. Customers who desire their Roses packed in this way will so state when they order. We make no charge for packing.

Guarantee We guarantee all goods we ship by express to reach the customer in good growing condition. Our responsibility then ceases.

Complaints No complaints will be entertained unless made immediately on receipt of goods.

Remittance Should be made either in the form of Money Order, Bank Draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk. Personal checks not accepted from unknown correspondents.

Unknown Correspondents Orders from unknown correspondents must be accompanied by the cash, or satisfactory bank or business reference. Remember, it takes time to write your reference and get their reply. If ordered sent C. O. D., one-third the value of the stock called for must be remitted with the order. We make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk. This rule will be strictly adhered to.

Shipping Facilities Having the rival express companies—Adams, American, National, Pacific, United States and Wells Fargo—these companies charge one through tariff rate over their own lines and have working arrangements with the Southern, Great Northern and Northern Pacific Express Companies, thus insuring you the lowest possible one through rate without the usual custom of charging two or more local rates where goods are handled by two or more express companies; thus we can reach almost any point in the United States by express at one rate, insuring our customers the lowest express charges.

New Low Express Rate Under General Special Rate Scale N of Classification, the charges are from 20 per cent. to 35 per cent. lower than on general merchandise.

Important Where the consignee feels that he has been charged an exorbitant rate by any express company and will write us to that effect, we will take the matter up with the company, and if an overcharge is made, will have same refunded to them at once. We ask all our customers to do this. It does no good to simply kick to yourself about the matter. Write us, stating the amount you paid for expressage on the shipment in question.

Plants Prepaid by Express To patrons in California and other far-off points we make a specialty of packing plants so as to make the expressage light, the expressage when prepaid being eight cents per pound. So, if you wish to avoid expressage, when the rate is high, add one-fifth additional to your remittance, and we will prepay same through to destination. Should the amount you remit fail to cover the express charges, we will bill you for the difference, and should you send more money than enough to pay the charges, we will remit you the difference.

How We Ship All goods are sent by express unless otherwise ordered.

Plants by Freight We will not ship perishable goods by freight except under the following condition. You to give us in writing before goods are shipped, release from all loss or damage in transit.

In Filling Your Orders We shall do our best to make every shipment satisfactory and profitable to you. In every case where we fail to do this from any cause, do not hesitate to report to us at once. We believe in liberal count, careful labeling and light, secure packing.

The Management Of our company is under the personal supervision of the Good Brothers, each of whom has been in the growing and shipping of Roses and Plants his entire life.

(THE LARGEST ROSE GROWERS IN THE WORLD)

Why Our Rose Trade is by Far the Largest in the World

Because Our Roses Grow and Bloom

Under our method of propagation—which is a natural one—growing during the growing season and resting during the non-growing season, we produce a Rose that can have no superior. This is evidenced by our largely increasing trade. Once a customer always one. Sometimes a customer of ours will be led off by cheaper prices, but they invariably after the trial come back to us, our prices being as low as first-class Roses true to name and carefully packed can be produced and sold for. Cheaper prices than we quote always mean cheaper Roses. We invite correspondence on large orders. Mail us your list of needs, giving the varieties and quantities of each you will require, and we will give you the very best prices at which first-class stock can be sold.

ROSE NOVELTIES FOR 1910

And Some of the Newer Roses of Recent Introduction. All Prices Are From Two and One-fourth-Inch Pots. If You Desire Prices on Four-Inch Pot Plants of the New Roses Write Us.

The mistake made by many growers of Roses is their failing to test the new Roses. This is obvious from the fact that there is no other department of floriculture in which there is more effort being put forward both in time and money, than there is along the line of the improvement of the Rose. And this is an honest effort, not such an one as many affirm is being carried on, the simply naming of a Rose and selling it at a high price without regard to its merits. Suppose the case that all Rose growers would look at it from that standpoint and refuse to buy new Roses because the price asked seemed high. This is in part what we would have missed. In the H. P. class we would be content with Paul Neyron, John Hopper and General Jacqueminot and have lacked the enjoyment of such grand late arrivals as Conrad Ferdinand Meyer, and of Frau Karl Druschki and J. B. Clark. In the Hybrid Tea class to have missed the great beauty of Etoile De France and of Chateau Des Clos Vougeat and Madame Segond Weber would have really been a Rose tragedy. And then in the Tea class, who would dare say that he is not a better man to have seen the charm of a Blumenschmidt, to have felt the inspiration of a Wm. R. Smith and to have received the benediction from a Helen Good. These are only a few of the really good things recently introduced, and by all means, both for your own real pleasure and for the replenishment of your purse, plant new Roses. Some may perchance disappoint you, as all may not do well in a given location, but if you get one variety out of ten that will thrive with you, you should feel well repaid, as your outlay with a modest purchase for a trial or test purpose will not embarrass you financially.

We are large buyers of new Roses, and the list here offered are the pick of our importations, as well as of the American grown varieties.

Aurora (H. T.)

One of the grandest of all Roses. Color clear, bright pink, full and double to the center. The most fragrant of all Roses; a gem. Price, 50 cents per dozen; \$3.50 per hundred.

Blumenschmidt (Tea)

This fine new Rose is a sport from Mlle. Franzisca Kruger, which it resembles in growth and form. Color deep golden-yellow of the richest and purest shade. After giving this Rose a thorough trial, we have no hesitancy in saying that it is without question the very best yellow Rose for garden culture. Where Roses are grown in the open during the summer for cut flowers, this Rose should be planted, as it ranks with Wm. R. Smith, Helen Good, Souv. de Pres. Carnot and the White and Pink Cochetts. It is a wonderful yellow Rose, winner of three first premiums. You make no mistake to plant it. Price, 50 cents per dozen; \$3.50 per hundred.

Betty (H. T.)

Odd coppery-yellow, overspread with golden-rose; not very full, but most profuse in bloom. A remarkable decorative variety. Price, 15 cents each; 60 cents per dozen; \$4.00 per hundred.

Cherry Ripe (H. T.)

An extraordinary free flowering Rose, branching in habit, vigorous and hardy, and as free as a Tea Rose. The flowers are medium in size, well formed, globular, light rosy-crimson, almost the color of Alfred Colomb; as fragrant as the Hybrid Perpetuals which it much resembles in form; every shoot produces a bloom; one of the most promising Roses of the year. Should be tried by all. Price, 50 cents per dozen; \$3.50 per hundred.

Celia (H. T.)

Color pure carnation-pink, deepening towards the center. Flower large and full with very regular outline, petals reflexing; a very vigorous grower, producing quantities of fine flowers in the autumn. Price, 60 cents per dozen; \$4.00 per hundred.

Crown Princess Cecilia (H. T.)

Pale silvery-pink; free and continuous. Long pointed buds; flowers freely from June till late autumn. Each 20 cents; dozen, \$1.50; hundred, \$10.00.

Chateau Des Clos Vougeat (H. T.)

You have all been looking for the black Rose and here it is. The most wonderful color and texture ever seen in a Rose; looks as if cut out of heavy velvet with a color shading from deepest velvety maroon-red to blackish-crimson. We are sure it will become one of the most popular of garden Roses, quite in a class by itself, blooming continuously in crops closely following one another. It is of fine shape, good size and the rich-

est colored of all Roses, being 50 per cent. darker than Prince Camille de Rohan and Jubilee; quite fragrant. Keep your eye on this Rose, as it is a wonder; named after a vintage of famous old French wine. Price, 50 cents each; \$5.00 per dozen.

Countess of Derby (H. T.)

Center salmon, shading into delicate peach, large and finely formed, very large petals, free and fragrant. A strong grower. Certificated by the Royal Horticultural Society. Price, 60 cents per dozen; \$4.00 per hundred.

Dean Hole (H. T.)

An intense salmon-pink, with bud of extraordinary length opening into mammoth bloom of splendid substance. An English gold medal Rose that is bound to rank with the very best. Price, 50 cents per dozen; \$3.50 per hundred.

Dr. Campbell Hall (H. T.)

Coral-rose; suffused white; base of petals yellow; flowers large, full and perfectly formed; very free. A charming Rose. Price, 60 cents per dozen; \$4.00 per hundred.

Etoile De France (H. T.)

The gold medal Rose of France, and claimed by the raiser, J. Pernet Ducher, of Lyons, France, to be the finest Rose he has ever sent out. We believe with him that it has no superior. The flowers are very large and borne on good, long, stiff stems; color a lovely shade of clear, red-crimson velvet; very fragrant and keeps well. In England, where it has been tried extensively, it has caused quite a sensation. Our opinion is that it will become as much of a favorite as La France. Keep your eye on this variety, as it is a stayer and altogether a grand variety. It is a good grower, a free bloomer, fine, rich color, deliciously fragrant. What more can be said of a Rose. Price, 50 cents per dozen; \$3.50 per hundred; \$30 per thousand.

Florence Pemberton (H. T.)

One of the grandest of all new Roses for outdoor culture. It is a splendid grower, the bloom is perfection itself in way of shape and size, the color a lively pink, edged whiter. A refined flower that is both beautiful and fragrant and will have many admirers. You will take off your hat to this Rose. Price, 50 cents per dozen; \$3.50 per hundred.

Freiherr Von Marschall (Tea)

As an outdoor Rose it has no superior. The flowers are large, beautifully shaped, double and full, borne in wonderful profusion all through the growing season. It is bright red, one of the brightest, if not the very best red Tea Rose in existence, fine long, well-shaped buds. Price, 50 cents per dozen; \$3.50 per hundred.

Friedrichsruhe (H. T.)

In this grand new Rose from Germany we have the near approach to the ideal red Rose. It grows better, blooms freer, has handsomer flowers than any red Rose we know of. It ranks up with such fine reds as Etoile de France, General McArthur and Laurent Carle, double and full and a rich color. Keep your eye on this variety. Price, 35 cents each; \$3.00 per dozen.

General McArthur (H. T.)

A new Rose that is already a fixture in many gardens. Color brilliant scarlet, a very bright-colored Rose of good size and double; very free blooming and fragrant. Many claim for this that it will rank with Helen Gould as a red Rose. It has certainly shown up well with us the past two seasons. We advise trying this Rose. Price, 60 cents per dozen; \$3.50 per hundred.

Gruss An Sangershausen (H. T.)

Flowers large, full and elegantly formed; color red-dish-scarlet, center deeper; buds long and pointed; very free and continuous; foliage and habit excellent. This looks like the red Rose for the million. Price, 50 cents per dozen; \$3.50 per hundred.

George C. Waud (H. T.)

Color glowing orange vermilion; flowers large and full with high pointed center, and strong tea fragrance. Growth very strong; very free in bloom. Won the gold medal of the N. R. S. of Great Britain. Price, \$1.50 per dozen; \$10.00 per hundred.

Helen Good (Tea)

We wish we could convey to you in words the beauty and great worth of this Rose. Without a single exception reports from all over the country say that Helen Good outclasses the Cochet. For summer cutting it has no equals. The color is a delicate yellow suffused with pink, each petal edged deeper. The buds and flowers are immense in size and of exquisite form, making it without doubt the greatest Tea Rose ever introduced, and we are proud to have brought it out. Be sure and try it. A genuine Cochet. Price, 50 cents per dozen; \$3.50 per hundred.

John Cuff (H. T.)

Buds long and pointed and produced in marvelous profusion. Color, warm, deep carmine; base of petals yellow. A very beautiful flower of very large size. Price, \$1.50 per dozen; \$10.00 per hundred.

Jeanne Barioz (Tea)

Color white, with center of salmon shading to clear yellow, very large and full; an extremely vigorous grower. Price, 75 cents per dozen; \$4.00 per hundred.

Killarney (H. T.)

The new Irish forcing Rose. Bright carmine-pink, marbled in creamy-white. Petals extremely large and of a texture that makes it one of the most lasting of Roses. This variety has the longest bud on the stiffest stem that we have ever seen. A favorite with everybody. Price, 60 cents per dozen; \$4.00 per hundred.

La Detroit (Tea)

The new Detroit Rose, which has been so largely advertised and exhibited. Shell-pink, shading to soft rose, reverse of petals cream-colored, fragrance like that of old Bon Silene. In form it is large, cup-shape; petals shell-like; rich, glossy foliage; a rampant, vigorous grower, making fine plants, and is unexcelled for forcing. Price, 50 cents per dozen; \$3.00 per hundred.

Lady Battersea, the Red Kaiserin (H. T.)

In the English gardens this Rose is very popular, its novelty and charm lying in its unusual coloring and its long and graceful buds. Called by many the Red Kaiserin. The buds are full and pointed and of a beautiful cherry-crimson, permeated with an orange shade. We recommend this as one of the easiest and best. Price, 50 cents per dozen; \$3.00 per hundred.

Liberty (H. T.)

The great velvety red forcing Rose. Price, 60 cents per dozen; \$4.00 per hundred.

Laurent Carle (H. T.)

An extremely vigorous grower with fine erect branching habit, and fine dark green foliage; long buds are borne on long stems, opening into large flowers of perfect form, just full enough to open freely; color brilliant velvety carmine. A very promising variety, another Rose it will certainly pay you to try. We know it has a future. Price, 75 cents per dozen; \$5.00 per hundred.

La Galissiere (H. T.)

Bright, deep pink, bud very large and full; a rank grower, extremely free bloomer; strongly recommended as a first rate bedder. The bloom is enormous in size, very full and of magnificent form. Price, \$1.50 per dozen; \$10.00 per hundred.

Lady Ursula (H. T.)

Color a beautiful shade of flesh-pink, strongly tea scented; a grand grower, producing the large round, full blooms in profusion. Price, \$1.50 per dozen; \$10.00 per hundred.

My Maryland (H. T.)

A grand pink forcing variety which may displace Killarney; grand grower; very full in bloom; easy to manage. Price, \$1.00 per dozen; \$6.00 per hundred.

Mrs. Jardine (H. T.)

Bright rosy-pink, shading to salmon-pink on the outer petals and holding its bright color in even the darkest weather. Has been tested for two years in this country and won numerous prizes; forces well. Price, 50 cents per dozen; \$3.50 per hundred.

Molly Sharman Crawford (H. T.)

Strong, vigorous and branching in habit, flowering profusely and continuously; blooms large and perfect; grand for bedding purposes and should have a thorough trial by all Rose growers. Color snow-white. A magnificent Rose. Price, \$1.50 per dozen; \$10.00 per hundred.

Mrs. Dudley Cross (Tea)

Pale, soft, rosy-yellow with deeper shadings. A delightful color and of beautiful rounded form; has good stems holding the blooms quite upright. A splendid bedding variety. Price, \$1.50 per dozen; \$10.00 per hundred.

Mme. Segond Weber (H. T.)

Rosy salmon; one of the grandest novelties of recent years. The bud is long and pointed, opening into an enormous bloom which deepens its color until fully expanded, when it is as impressive as an American Beauty. A fine, strong grower; of the general type and color of My Maryland. The texture of the Roses is very thick and heavy, and the form of the petals peculiarly beautiful. Color salmon-flesh on opening. Price, \$1.50 per dozen; \$10.00 per hundred.

Marichu Zayas (H. T.)

A very free growing, free flowering novelty, with very large, full flowers of odd shape of a creamy-rose color, brightening into brilliant rose-pink. A delightfully new bedding variety. Price, 60 cents per dozen; \$4.00 per hundred.

Mlle. Louise Leroy (Tea)

Creamy-white on long stiff stems; a very large flower; a first rate Rose. Price, \$1.50 per dozen; \$10.00 per hundred.

Mrs. Aaron Ward (H. T.)

One of the most delightful Roses of recent years in a color that catches the eye at once—a deep golden-orange color, shading out to creamy-yellow at the edge of the petals. Trier

Semi-double, creamy-white, producing large clusters, free and continuous. Mr. Lambert's new Rambler. Price, 50 cents per dozen; \$3.00 per hundred.

Magnafrano (H. T.)

This Rose is becoming popular because of its splendid crimson-scarlet color and magnificent buds. The flowers are large, very regular, full and double, and deliciously sweet. Price, 50 cents per dozen; \$3.50 per hundred.

One of the most beautiful of light colored Roses. Don't forget this Rose. It will make a place for itself among the leaders. Price, 75 cents per dozen; \$5.00 per hundred.

The Wonderful New Blue Rambler

Violet Blue

It has been the desire of every Rose lover to live to see the blue Rose, and the Germans have sent us **Violet Blue** that is a violet-blue in color, a most beautiful and wonderful color. It belongs to the Rambler family, blooming in immense panicles of flowers of a lovely violet-blue color. Try it. We paid \$1.50 a plant for it last fall by the hundred. We offer it to you at 35 cents each; \$3.50 per dozen.

Tausendschon, or Thousand Beauty

A climbing Rose that comes to us from Germany. The flowers upon first opening are the most delicate shade of pink ever seen in a Rose, might be described as a white delicately flushed pink changing to rosy-carmine. It gets its name from its many flowers and the variation in coloring; beautiful; will become as famous as **Crimson Rambler** or **Dorothy Perkins**. Price, 50 cents per dozen; \$3.50 per hundred.

Striped Reine Marie Henriette

(Mme. Driout)—Everybody is familiar with that best of all climbing red Roses, **Reine Marie Henriette**. It is planted more largely in Philadelphia and south of that latitude than any other climbing Rose. This striped or variegated form is identical in every way except that the flowers are a bright red, distinctly striped with light pink. It will be planted as widely as any climbing Rose when Rose lovers know its beauty. Price, 50 cents per dozen; \$3.00 per hundred.

Climbing Papa Gontier

A strong climbing form of **Papa Gontier**. To those who desire a fine red climber this will fill the bill. Price, 75 cents per dozen; \$5.00 per hundred.

Rose Vestal (The Climbing Bride)

A lovely pure white climbing form of the **Bride**. We predict a great future for this Rose. Price, 60 cents per dozen; \$4.00 per hundred.

Climbing Testout

This is a vigorous climber and in every way is an exact counterpart of **Madame Caroline Testout**, except its climbing habit. Color, brilliant satiny rose of the brightest hues, a really good Rose. Price, 75 cents per dozen, \$5.00 per hundred.

SUMMER BEDDING ROSES

FOR CUT FLOWERS

We are often asked to name a list of Roses suitable for planting in the garden that produce fine buds and flowers on good stems that can be used for summer cut flower Roses by the florists. We have some customers that order them in ten thousand lots, and they would not be without them. They will live out with protection. Try them. Here is a list of the best Roses for this purpose:

Maman Cochet (Tea)

A magnificent pink Rose, known as **Pink Cochet**, and the grandest of outdoor bedders in pink, making an enormous growth in one season of the largest size, and one of the most vigorous and beautiful growers in the Tea family. Color very bright pink, with shadings of yellow at the base. Buds and flowers both fine. Price, 50 cents per dozen; \$3.00 per hundred.

White Maman Cochet (Tea)

This American sport of the grand French variety has proved the best of white bedders. Wherever outdoor Roses are grown, **White Maman Cochet** is a favorite. It is even larger than **Maman Cochet**, the pink variety described above. The color, a pure white, will sometimes come tinged pink, but always beautiful. Buds and flowers large and beautiful. Price, 50 cents per dozen; \$3.00 per hundred.

Helen Gould (H. T.)

Until the coming of **Rhea Reid**, this was the only red summer cut flower variety. It in no way conflicts with **Rhea Reid**, as the color is entirely different. **Rhea** is a much darker red, while **Helen Gould** is a brighter red. Price, 50 cents per dozen; \$3.00 per hundred.

Blumenschmidt (Tea)

This Rose is in a class by itself as a yellow blooming summer Rose, none to touch it in any particular. It is so far the only one that is yellow and that grows and blooms. Price, 50 cents per dozen; \$3.50 per hundred.

Wm. R. Smith (Tea)

This Rose has been rechristened as **Maiden's Blush**, and also as **Jeannette Heller**. As a summer bedder this variety ranks up with the two **Cochets** and **Helen Good**, producing immense quantities of fine flowers of creamy-white with pink shadings. This is a most wonderful Rose and will please all who plant it. Price, 50 cents per dozen; \$3.50 per hundred.

Rhea Reid (H. T.)

Up until this Rose made its advent there has been no red Rose that filled the bill as to a summer bedder that produced fine red Roses suitable for cut flower purposes. It grows and blooms freely, and the color is the very richest. This Rose will unquestionably make its greatest mark as a summer bedder. Price, 50 cents per dozen; \$3.50 per hundred.

Helen Good (Tea)

This Rose outranks **Maman Cochet** as a summer Rose, although it in no way conflicts with it in color. Of enormous size both in bud and flower. The color is a delicate yellow, suffused with pink, each petal edged deeper. Very chaste and beautiful. It is a true **Cochet** type of Rose, both in growth and flower, and by some claimed to be the best of all Roses. Price, 50 cents per dozen; \$3.50 per hundred.

The King
of Flowers

Herbaceous Peonies

Hardy
Everywhere

The demand for fine Peonies is growing with each year, and every florist should have at least a small plantation of them from which to supply his trade, both for the plants and for cutting the bloom. One can make no more profitable investment. The bloom if cut in the bud state lasts for a week or more.

We offer as choice a list of Peonies as you will find in this country. To the collector, the varieties named will be attractive. To those who wish to increase their stock of desirable sorts, this list will appeal, and to the nurserymen and dealers who buy to sell, there will be found a list of choice varieties at moderate cost.

We started some years ago to grow Peonies, and we believe that no firm in this country has such a large planting of valuable sorts as we. Our planting this fall

occupies thirteen acres of space. Our endeavor is always to lead and not follow in any branch of the floral business we undertake. We will make Good & Reese Peonies as much of a household word as are G. & R. Roses, so do not forget us when in need of Peonies. We can supply them (referring to the price) from the aristocrat to the plebeian. We guarantee our Peonies true to name.

The plants we offer are divisions (from plants two to three years old), with two to five or more eyes. We always give value.

We supply six at dozen, 25 at hundred, and 250 at thousand rates. For any varieties not listed write us for prices.

Among the hardy perennial plants, no class is of more importance or is more in public favor today than the Hardy Phlox, embracing as they do a wider range of attractive colors than can be found in any other hardy plant, while their gorgeous masses of color are unrivaled by any other summer flower. We have eliminated from our collection all inferior sorts and varieties of dull color, and are offering only such as are distinct and effective. Many of the sorts which heretofore have been scarce and high priced are now offered at popular prices. All of the plants which we offer are strong, one-year field-grown. We grow annually five hundred thousand Phlox and we sell them out clean each year. This indicates better than we can tell you the very great merit of the Phlox as a desirable bedding plant.

But no descriptive name can give an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances. Its symmetry of form, grace and beauty of foliage are unequaled in the vegetable kingdom. It is easily grown in the house, and is highly ornamental. It requires the same culture as the Palm.
